

## Installation Guide/User Manual for CrowdVest

- To access our website, please go to <https://crowdvest-84514.firebaseio.com>
- Great! Now that you are there, feel free to check out our landing page and read what our website is about before you decide to **Join the Crowd**.
- Once you click **Join the Crowd**, you will have the option to **Sign Up** if it's your first time, or **Sign In**.
- Once you're in, feel free to make a **New Group** to see if others are interested in contacting you to join your group. You should be able to see who is in your group via member list.
- If you don't want to make a group, you can totally feel free to check out other groups and see if you want to contact the Group Owner to join their group via email. You will have a completely transparent list of each group's members, so you know who you're investing with!
- All groups will be displayed on the Dashboard for easy access.
- On the right side of the dashboard, you'll notice a notifications feed, which gives you live updates about when people post a new group to the platform.
- Any member can join any crowd at anytime. Happy investing!!
